Pre-season deals on now!!

Rolling harrows – Models 225 & 1225 in stock!

The rolling harrow soil conditioner levels, incorporates chemicals and finishes the soil in one smooth, efficient operation. You'll get a firm, level field with coarse soil on top that resists crusting, with the finer soil particles at planting depth for optimum seed-to-soil contact. Many sizes on hand from 20' thru 45' working widths.

Zone builder subsoiler

Yields suffer when compaction keeps roots from growing freely into the subsoil for optimum nutrient and water uptake. The Zone-BUILDER® subsoiler from Unverferth lets plants stretch their legs (and their roots) by opening passageways through the hardpan with minimal surface disruption. 4, 5, 6 & 7 shank models arriving soon.

McCormick X60,
an evolution in technology.

X60 Tractor - 80 - 121 HP Engine

Developed as an evolution of the McCormick CX Range, the new X60 series is designed to be even more powerful and reliable than its predecessor.

No matter how advanced your planter technology is, a great crop begins with a perfect seedbed

The McFarlane Reel Disk cuts, mixes and levels standing field residue while maintaining a uniform working depth. It will open up your soil to enhance drying and prepare a fine, firm seedbed resulting in more even emergence and better yields.

Check out the Reel Disk at H.G. Violet Equipment today. Good supply of machines on hand for spring field work from 14' thru 35' working widths.

Mahindra
Rise.

BIG Selection on Hand!!

Mahindra Power Package
Customers can now receive a \$500 rebate on the purchase of two qualifying Mahindra implements when purchasing a NEW Mahindra tractor.
